

Book Swap

I loved the book swap as I gave books I had finished reading and got another one! I would love to do this again in the future.

I enjoyed the book swap because I really liked how we got different books from different genres.

I thought the book swap was great as we didn't know what we were getting and it was a mystery which made it more exciting.

I enjoyed the book swap so much! I saw everyone opening their books and they looked very happy. It felt like I was getting a present!
