.	**Montem Academy Eco Committee (Pupils) Meeting Date:3.2.22**
Present:	Hannah Samuel Year 5: Mariam, Khadijah, Alaa, Jannae Year 4: Al-Hassan, Zayn, Jainish, Amjad
	Apologies:

	Action

● The Eco Team met to look at the Eco Magazine and make final adjustments before Spring 2 so that it is ready to be sent on the Website/App.
● Children stated that they liked the magazine but want to make sure it is colourful and exciting too (as it is a lot of green).
● HS took the eco committee to see the new 'Eco Garden' that is being created in the school.
  ○ We discussed the good things about the eco garden and the impact that it will have and also how we can improve it further.
  ○ Ideas included:
  ■ Have a bird house so that children can feed and watch the birds.
  ■ Have competitions where children can build/create something for the garden (the best items are put there) and the children get an eco certificate.
  ■ Have a hedgehog house so that children can see wildlife.
  ■ Replace the pots with new plants that will attract wildlife.
  ■ Have plants on the shed roof (a green roof).
  ■ Make sure children can access the area at playtime/lunchtime.
● Children stated that they had seen the new recycling bins but they were not being used yet. HS told them that we need to teach everyone about how to recycle properly first.
  ○ Children had an idea that they could we on 'eco duty' during lunchtimes to ensure that food is put into the correct bins and promote accurate recycling.
	HS to finalise magazine and add more colours
	
	HS to assess validity of ideas and incorporate them.
